## 1) Sequential' Translation is inaccurate

The translation of 'Sequential' is inaccurate. Because the sentence is divided according to quotation marks, errors occur — for example, a phrase like 'in the U.S.' gets split into 'in the U.' and 'S.' as if they were separate sentences, as below.

### 3) Need Home button

It is needed a button on the Translator app page that returns to the first main page (the one that includes the testimonial). It would be great if clicking the red-highlighted title area in the photo below would take users back to the main page.

### 4) Need more tenses
